Materials used in the design:

An example of Traventino decorative facade plaster (the color is taken arbitrarily, before starting work you need to coordinate the color and texture).

Roof material selected roofing system: GAF Timberline HDZ Lifetime Shingles 33.33 Sq. Footiv Village Vugilla.

https://lakefrontsupply.com/gaf-timberline-hdz-lifetime-shingles-33-33-sq-ft-charcoal.html?srsltid=AfmBOoq6xWBRNCUKeswTMy05aOC9qL6tPwLbsZfeZvE9qpKP8VTp_KMg5ks

Window frames, door frames, panels on the side of the seating area: metal sheets (aged Corten texture) were used for the project.

Path material selected: Primed concrete base with waterfall to drains and finished with a mixture of resin bound gravel, Cappuccino.

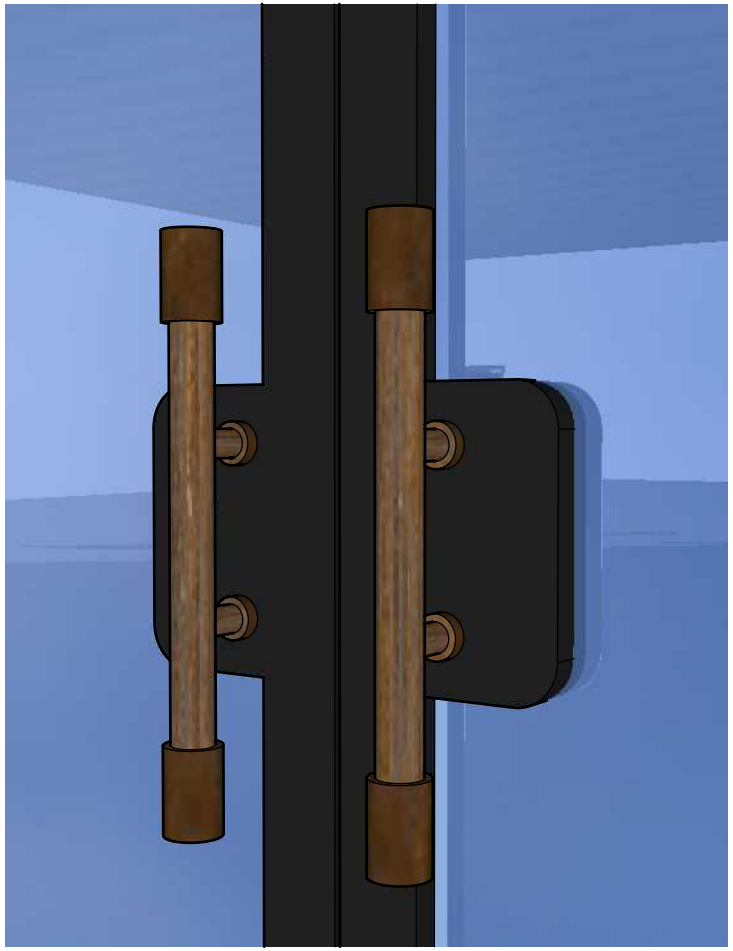

Wooden elements: beams (beam cross-section 100x100x100 mm), selected for the project: burnt wood according to the Japanese Shou Sugi Ban system. Before launching into production, agree on a sample (+-) with the manufacturer.

Material for covering the playground: artificial turf (given at random, the color and texture of each manufacturer is different).

The illumination of the sign is limited to the following principle: in the façade beam (beam cross-section 100x100 mm), a seat is made at the end for a recessed lamp.

Option for entrance door handles.

Building dimensions:

length: 75 feet;
width: 60 feet;
height: 14 feet (back entrance side, 20 feet high from the front, and goes to zero on the back entrance wall).
